The 9th edition of the **International Conference on Game and Entertainment Technologies** (part of the IADIS Multi Conference on Computer Science and Information Systems) was held in Funchal, Madeira, Portugal, during **2-4 July, 2016**.

This conference was organized by the International Association for Development of the Information Society (IADIS).

The Game and Entertainment Technologies (GET) 2016 conference aims to bring together research and practice from creative, social and business practitioners and researchers in this challenging field. The focus of this conference is on design, development and evaluation of games, entertainment technologies and the nature of play. Known to have been enjoyed since at least 30 BC, games and entertainment are a universal part of human experience and present in all cultures. Games and entertainment activities contribute to the social, emotional, psychological and physical well-being of human society. As game and entertainment technologies become increasingly more pervasive we are continually challenged in our work, learning and personal life by increased access to virtual spaces and communities that offer opportunities for everyday needs and aesthetic experiences. The ‘Creative Industries’ require design and development structures, techniques and methodologies that enrich, enhance and encourage new interaction modes, metaphors and in-depth co-creation.

This edition was published jointly with International Conference on Computer Graphics, Visualization, Computer Vision and Image Processing 2016 and International Conference on Interfaces and Human Computer Interaction 2016. These events received 192 submissions from more than 30 countries. Each submission was anonymously reviewed by an average of five independent reviewers, to ensure that accepted submissions were of a high standard. Consequently, only 29 full papers were approved which means an acceptance rate of 15%. A few more submissions were accepted as short papers, reflection paper, posters and doctoral paper.

Extended versions of the best papers were selected to be published in:

Besides the presentation of full papers, short papers, reflection papers, posters and a doctoral consortium, the conference program featured one keynote presentation given by Professor Jan Gulliksen (KTH Royal Institute of Technology, Sweden).
Keynote Presentation:

HUMAN COMPUTER INTERACTION AND SOCIETAL IMPACT – CAN HCI INFLUENCE PUBLIC POLICY MAKING AND IT POLITICS?

by Professor Jan Gulliksen, KTH Royal Institute of Technology, Sweden

Program Committee Members:

Abdennour El Rhalibi, Liverpool John Moores University, UK
Alf Inge Wang, Norwegian University of Science and Technology, Norway
Ali Arya, Carleton University, Canada
Anastasios Karakostas, Aristotle University of Thessaloniki, Greece
Anthony Whitehead, Carleton University, Canada
Areti Damala, University of Strathclyde, UK
Armelle Prigent, Universite de La Rochelle/L3I, France
Arttu Perttula, Tampere University of Technology, Finland
Carla Hoekendijk, Independant consultant/developer, The Netherlands
Castulus Kolo, Macromedia University of Applied Sciences, Germany
Christos Bouras, University of Patras and Computer Technology Institute, Greece
Connie Veugen, Vrije Universiteit Amsterdam, The Netherlands
Daniel Cermak-sassenrath, IT University of Copenhagen, Denmark
Ellen Brox, Norut – Northen Research Institute, Norway
Emanuele Carlini, ISTI, CNR, Italy
Eric Gressier, Cnam – Cedric, France
Erik Van Der Spek, Eindhoven University of Technology, The Netherlands
Eva Hudlicka, Psychometrix Associates, USA
Gabriele D’Angelo, University of Bologna, Italy
Hanna Wirman, Hong Kong Polytechnic University, Hong Kong
Harry Agius, Brunel University London, UK
Ian Marshall, Coventry University, UK
Isabelle Astic, Cnam, France
James Bowman, University of Advancing Technology, USA
Jesper Juul, Royal Danish Academy of Fine Arts, School of Design, Denmark
Jouni Smed, University of Turku, Finland
Kai Kimppa, Turku School of Economics, Finland
Laura Ricci, University of Pisa, Italy
Louis-martin Guay, University of Montreal, Canada
Magnus Johansson, Stockholm University, Sweden
Marcia Medeiros, UFC – FANOR(Devry), Brazil
Marcos Rodrigues, Sheffield Hallam University, UK
Melinda Jacobs, Subatomic, The Netherlands
Michael Katchabaw, University of Western Ontario, Canada
Michel Simatic, Telecom Sudparis, France
Mikael Collan, Lappeenranta University of Technology, Finland
Monica Gavrielidou, University of Thessaly, Greece
Niklas Ravaja, University of Helsinki, Finland
Pauliina Tuomi, Tampere University of Technology, Finland
Pilar Lacasa, University of Alcala, Spain
Richard Bartle, University of Essex, UK
Roberto Beauclair Seixas, National Institute of Pure and Applied Mathematics, Brazil
Rommert Casimir, Tilburg University, Netherlands
Ruck Thawonmas, Ritsumeikan University, Japan
Spyros Vosinakis, University of the Aegean, Greece
Stefano Ferretti, University of Bologna, Italy
Thrasyvoulos Tsiatsos, Aristotle University of Thessaloniki, Greece
Torill Mortensen, University of Copenhagen, Denmark
Vagelis Kapoulas, Computer Technology Institute & Press “Diophantus”, Greece
Windson Viana , UFC, Brazil
Yoshihiro Okada, Kyushu University, Japan
