The 13th International Conference on Game and Entertainment Technologies (GET 2020) (part of the IADIS Multi Conference on Computer Science and Information Systems 2020) was held virtually due to the COVID-19 pandemic, during 23-25 July 2020.

This conference was organized by the International Association for Development of the Information Society (IADIS).

The conference tried to bring together research and practice from creative, social and business practitioners and researchers in this challenging field. The focus of this conference was on design, development and evaluation of games, entertainment technologies and the nature of play. Known to have been enjoyed since at least 30 BC, games and entertainment are a universal part of human experience and present in all cultures. Games and entertainment activities contribute to the social, emotional, psychological and physical well-being of human society. As game and entertainment technologies become increasingly more pervasive we are continually challenged in our work, learning and personal life by increased access to virtual spaces and communities that offer opportunities for everyday needs and aesthetic experiences. The ‘Creative Industries’ require design and development structures, techniques and methodologies that enrich, enhance and encourage new interaction modes, metaphors and in-depth co-creation.

This edition was published jointly with the 14th International Conference on Interfaces and Human Computer Interaction 2020. These events received 118 submissions from more than 19 countries. Each submission was anonymously reviewed by an average of five independent reviewers, to ensure that accepted submissions were of a high standard. Consequently, only 20 full papers were published. The overall acceptance rate corresponded to about 17%. A few more papers were accepted as short papers, reflection paper and poster.

Extended versions of the best papers were selected to be published in:

- the IADIS International Journal on WWW/Internet (IJWI). ISSN: 1645-7641

Besides the presentation of papers, the conferences also included a keynote presentation given by Professor Chaomei Chen, College of Computing & Informatics, Drexel University, USA.

Keynote Presentation:

VISION OF THE MIND

by Professor Chaomei Chen, College of Computing & Informatics, Drexel University, USA

Volume Editor: Katherine Blashki

Computer Science and Information Systems Series Editors: Piet Kommers and Pedro Isaias
Program Committee Members:

Alessio Ceccherelli, Tor Vergata University, Italy
Alf Inge Wang, Norwegian University of Science and Technology, Norway
Anastasios Karakostas, Aristotle University of Thessaloniki, Greece
Carla Hoekendijk, Independant Consultant/Developer, The Netherlands
Castulus Kolo, Macromedia University of Applied Sciences, Germany
Christos Bouras, University of Patras and Computer Technology Institute, Greece
Connie Veugen, Vrije Universiteit Amsterdam, Netherlands
Eva Hudlicka, Psychometrix Associates, USA
Gabriele D’Angelo, University of Bologna, Italy
Harry Agius, Brunel University London, United Kingdom
Ian Marshall, Coventry University, United Kingdom
Ines Di Loreto, University of Technologies of Troyes, Finland
Isabelle Astic, CNAM, France
Jouni Smed, University of Turku, Finland
Kendra Cooper, Independent Scholar, Canada
Marcia Medeiros, UniFANOR (Devry Brasil), Brazil
Marcos Rodrigues, Sheffield Hallam University, United Kingdom
Michael Katchabaw, University of Western Ontario, Canada
Michel Simatic, Telecom Sudparis, France
Mikael Collan, Lappeenranta University of Technology, Finland
Monica Gavrielidou, University of Thessaly, Greece
Panagiotis Kyriakoulakos, University of The Aegean, Greece
Pilar Lacasa, University of Alcala, Spain
Thrasyvoulos Tsiatsos, Aristotle University of Thessaloniki, Greece
Ulysses Bernardet, Aston University, United Kingdom
Windson Viana, UFC, Brazil
Yoshihiro Okada, Kyushu University, Japan
